### My Survey

**Question 1:** What is your favorite pizza topping?

#### Data

Topping	Frequency
Pepperoni	10
Cheese	5
Sausage	3
Supreme	2

#### Chart

#### Statements About the Chart:

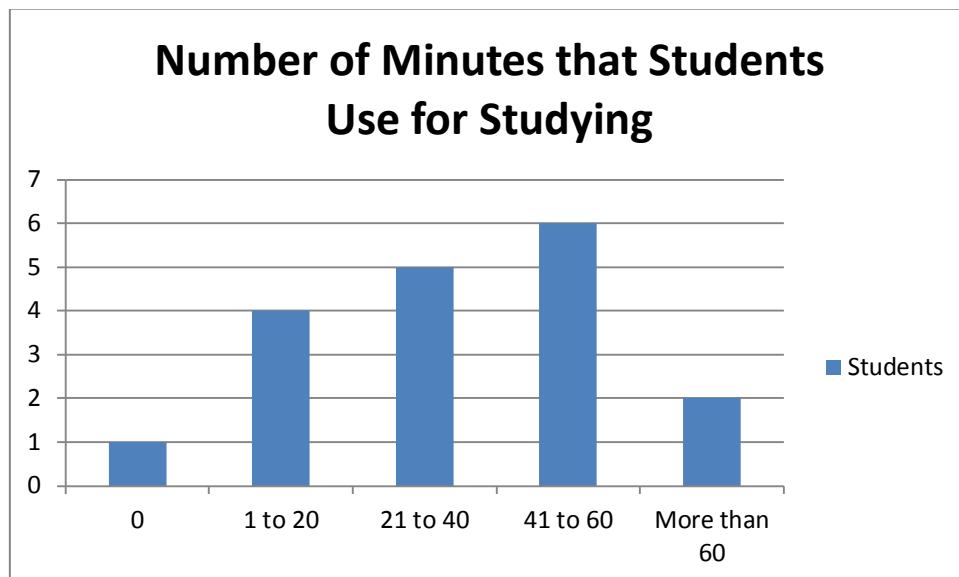

1. Half of the people surveyed like pepperoni.
2. The number of people who like cheese is equal to the number of people who like sausage and supreme combined.
3. The least number of people in the survey liked supreme as pizza topping.
4. There were twice as many people who liked pepperoni than cheese.
5. A quarter of the people surveyed liked cheese.

**Question 2:** How many minutes do you use for studying after school every day?

**Data**

Minutes	Frequency
0	1
1-20	4
21-40	5
41-60	6
More than 60	2

**Graph**

**Statements About the Graph:**

1. Most students study between 1 to 60 minutes every day.
2. There is only one student who does not study after school.
3. The number of students who studies for 1 to 20 minutes is twice the number who studies more than 60 minutes.
4. There were 8 students who study at least 41 minutes after school.
5. The number of students who studies between 21 to 60 minutes is more than the number of those who study less than or equal to 20 minutes.
